The Cambro® Story

When William and Argyle Campbell first opened the doors at Cambro Manufacturing in 1951, their goal was to make a hospital meal tray of the highest quality possible. Named the Camtray®, it demonstrated that they were as committed to excellence in the food service industry as they were to the quality of their own products. As 2016 marks the company's 65th year of leadership in quality, innovation and customer service, today Cambro serves the world with the industry's most complete selection of products for widely diverse segments of the food service business.

Since 1951, the company has experienced many changes including a greatly expanded product line, new methods of manufacturing and distribution, and an increased emphasis on topics like environmental responsibility. From a single factory in California, Cambro has grown to become an international presence with production facilities and sales offices in the United States, Europe, the Middle East and Asia. But the original guiding vision of the Campbell brothers remains unchanged: to create and provide the most innovative, durable and highest quality products for the food service industry. Now led by William's son Argyle, Cambro is still dedicated to meeting our customers' needs, and equally committed to helping you serve, satisfy and delight your guests.

At the heart of our business philosophy is our willingness to listen, so in a very real way we owe all our success to you, our customer. Our longevity in a very competitive field for over 65 years certainly proves the value of that philosophy, and we are proud to have earned the loyalty of customers of all sizes and in all segments of the industry. From hotels to healthcare to caterers, from restaurant chains to educational facilities, we understand the food service business and we design and create our products with the end user foremost in mind. Our goal is to provide our customers the best

possible value on products that are durable, save labor and increase food safety, so you can offer your guests a superior experience while enhancing profitability.

Cambro is uniquely committed to investing in the people and processes that make our products a reality. We're proud that children and grandchildren of some of our first employees are with us today, and of the dedication to quality and service of our entire family worldwide. We continually work on developing new ideas for specific industry segments, and invest in new tooling and leading-edge machinery to bring these products to market. We persistently strive to improve our manufacturing methods to be more efficient in terms of process and materials, to keep costs under control while keeping our planet healthy. And we constantly seek to maintain quality and value despite rising costs of transport and raw materials, the need to reduce environmental impacts, and the demand of end users for total order accuracy and responsive service across a global market.

From once offering a single product, the Camtray, over sixty-five years ago, today Cambro offers a wide range of trays, table service and display items, storage, shelving, merchandising and insulated transport products, as well as innovative warewashing systems and healthcare meal delivery solutions.

The future is certain to bring great changes to our industry. Yet one thing that will remain a constant is Cambro's tradition of continually developing new products that help food service operators save time and money, increase sales, reduce labor and improve service. In the years ahead, guided by the commitment of its founders to innovation, quality, and value, Cambro Manufacturing will still be the leader in serving the food service industry and you, our valued customer.

CAM GOBOX® – INSULATED LIGHTWEIGHT CARRIERS

Cambro's latest line of insulated transporters are ideal for caterers and foodservice operators looking for an ultra-lightweight transporter that offers superior temperature retention to protect food safety and excellent durability to withstand heavy commercial use, all at a budget-friendly price. Just take them and go!

- Thermal Insulation – Holds hot or cold food for many hours.
- Lightweight – Made of EPP (Expanded Polypropylene) – an eco-friendly, high-performance foam material.
- Great Structural Strength – capable of handling significant loads while maintaining its shape and form.

- Excellent Energy Absorption – can withstand substantial impact without damage.
- Chemically Inert – unaffected by oil, grease, and most chemicals.
- Dishwasher safe.
- 100% Recyclable.
- Line your Cam GoBox with a Cambro GN Food Pan and Seal Cover for the ultimate food safety solution. Cambro GN pans protect food and carrier to support HACCP compliance.

Only available from Cambro European Logistics (CEL), Germany.

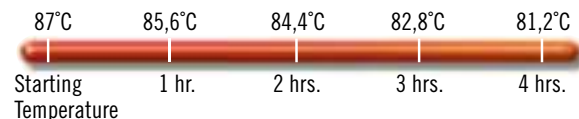

Note: Best results will be achieved by loading food pans between 82° to 88°C. Loading metal food pans over 120°C will result in damage to the carrier.

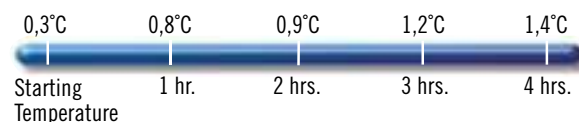

CAM GOBOX® – INSULATED LIGHTWEIGHT CARRIERS

Hot Holding

Cold Holding

Using Cam GoBox carriers together with Cambro's Camwear®, polypropylene or high heat GN food pans creates the ideal food-safe, HACCP-compliant holding and transport system.

Ergonomic Handles

Comfortable handles allow easy and safe lifting of the Cam GoBox.

Stackability

Cam GoBoxes inter-stack and also stack with major competitive brands.

Easy Identification

A built-in label area keeps plastic menu tags (included for EPP300 and EPP400) in place for easy content identification or routing. StoreSafe Labels can also be used with Cam GoBoxes.

Easy Loading and Unloading

Interior wall recesses make loading and unloading easy for both GN 1/1 as well as 1/2 pans.

4-Sided Handling

Thoughtfully designed built-in handles along the top of the front loader units allow them to be easily carried from all four sides.

Drip-Resistant

Built-in condensation barrier helps front loaders to remain drip-resistant.

Gentle Open and Close

Beveled door edges ensure door can be easily closed and latched.

Full 270° Access

Durable hinges and latches allow the door to open 270° and remain open securely to the side of the front loader for easy access to products. Latches keep door securely closed during transport.

ULTRA PAN CARRIER® AND ULTRA CAMCART® H-SERIES

- Designed for both electric hot holding and non-electric transport.
- Gentle, 65° to 74°C non-radiant heat will not cook food and maintains food moisture.
- Holds a wide variety of foods such as pasta, bone-in fried chicken, and double-crusted pies.
- One hour preheat time from room temperature and three minute recovery.
- Energy consumption is substantially less than comparable metal cabinets.
- Will not rust or dent like metal cabinets, is more economical, and is easy to maneuver.
- All UPCH models have been tested to maintain safe, hot food temperatures, for up to 4 hours when unplugged.
- Models with only the top heated door offer unique versatility with an electric hot holding cabinet on top and passive hot or cold food holding on the bottom.
- Heated door kits also sold separately to retrofit UPC400, UPC800 and UPC1600.

Colors: Granite Gray (191), Black (110), Granite Green (192), Slate Blue (401), Dark Brown (131).

Casters: 15,2 cm 2 fixed, 2 swivel, 1 with brake.

Power On and Heat on Indicators

Communicate the Power and Heating status of the UPCH1600 unit. Know instantly when the compartment has reached target temperature.

Vents

Consistent heating throughout the compartment is generated by vents that constantly circulate heat from front to back.

Tough Exterior

All UPCH units are made of tough, polyethylene with polyurethane foam insulation to keep heat in while keeping the exterior cool to the touch. Will not crack, dent, chip, rust or break.

Insulation

Foamed-in place polyurethane foam insulation will hold temperature above 64°C for up to 4 hours when used unplugged.

PRO CART ULTRA™ (HOT, COLD AND/OR PASSIVE)

The first holding cabinet and transport cart to actively hold both hot and cold food at the same time—without a compressor.

- High capacity cart holds GN food pans, 60 x 40 cm sheet pans, trays and pizza boxes in two separate, insulated cabinets.
- Customize the cart to suit your menu with a choice of active hot, active cold or passive holding in each cabinet.
- Energy efficient, active modules draw less than 5 amps each.
- Cold module uses environmentally-friendly, thermoelectric technology.
- Active modules also sold separately to quickly adapt to menu or operational changes.
- Even without electricity, this cart can maintain safe temperatures for 4+ hours.
- Comes standard with upgraded, 15 cm heavy duty casters.
- 110V and 220V available.

Color: Charcoal Gray (615).

Multiple International
Certifications available.

PRO CART ULTRA™ (ELECTRIC HOT AND COLD)

ELECTRIC HOT

Keeps food safely between 65,5° to 74°C with convenient, pre-set, gentle, nonradiant heat.

ENERGY-SAVING HEATER over 50% more

energy efficient compared to leading metal carts! Gentle, non-radiant heat circulates consistently from front to back of the cabinet.

VERSA FOOD SERVICE SYSTEM

The Versa Food Service System provides custom design without the custom price. This non electric, versatile, portable system keeps food cold for hours with either ColdFest® pans or Buffet Camchillers®. The system is made of durable all-weather material and is easy to clean. The Versa Food Service System offers countless configurations to fit any foodservice need.

- Ergonomic, molded-in handles on both sides ensure easy maneuvering.
- Versa Food Bar and Work Table both include a drain faucet that can be connected to a hose for drainage and easy cleaning.
- Add an end table to a Food Bar or Work Table to hold trays, condiments, or paper goods.

Versa Cart

- Join a Versa Cart with a Food Bar or Work Table for fast check-out and improved traffic flow.
- The Versa Cart includes an adjustable shelf, standard lockable drawer and convenient electrical access through the top of the cart and front design panel.
- Optional Tray rails easily adjust to a lower height.
- Optional pull-out keyboard tray fits inside the drawer.

All components are fully compliant with NSF requirements.

Versa Food Service System is covered under U.S. Patent 9,084,498 B2.

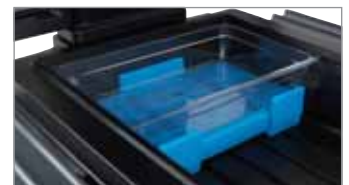

Versa Straight Connector and Versa Corner Connector

Easily and safely attach multiple components together to create a contiguous system and maximize space and merchandising options.

Versa Food Bar® Lighting Kit

Enhance your foodservice presentation with the LED lighting accessory. The light uses a 12 volt long-lasting battery that charges with an universal charger.

Buffet Camchillers®

Extend safe, cold holding time without ice. Dual-sided Buffet Camchillers hold 6,5 and 10 cm pans. Fits in the Versa Food Bar, Versa Work Table and Table Top Food Bars.

VERSA FOOD SERVICE SYSTEM

Whether you're looking to maximize space, improve traffic flow, add merchandising space or create an upscale salad bar, the Versa Food Service System has you covered.

Versa Food Bar

Versa Work Table

- Perfect for a prep table, display, self-serve station or back bar.
- Attach a Work Table to a Food Bar to merchandise snacks and beverages.
- Matching well covers are included with each Versa Work Table.

CAMRACK® 4-IN-1 WAREWASHING SYSTEM

The Camrack System will protect glassware and keep it clean until the next event, eliminating the need for rewashing.

Efficient Washing

Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying.

Long-lasting polypropylene Camracks are built to withstand chemicals and high temperatures up to 93°C.

Sanitary Storage

Closed outer walls keep fingers and contaminants out and reduce risk of breakage and injury. The Camrack cover and Camdolly make this system completely enclosed. Glassware stays clean when in storage, so operators will only have to wash items once.

Inventory Control

A variety in base rack colors help identify at a glance both contents and quantity per rack. Available in 10 colors.

Safe, Sanitary Transportation

Camracks can be transported across large campuses or to off-site locations in one single unit.

Easy to grip handles and smooth overlapping sides facilitate safe handling.

Camrack Cover Seals from the Top and Camdolly® Seals from the Bottom.

Camracks interstack with racks from major manufacturers.

Content labeling options include one-color custom hot stamping or pre-printed clips.

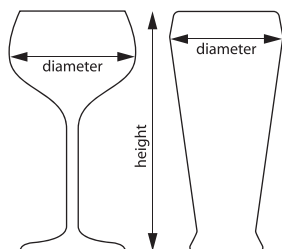

Camracks are covered by one or more of the following patents: Full Base Dish Rack D 412,607. Half Base Dish Rack D 404,176. Half Dish Rack Extender D 400,321. Enlarged Dish Rack Extender D 399,614. Dish Rack with Extender 5,934,486 Utility Patent. Pronged Base Dish Rack D 403,472.

FULL SIZE CAMRACKS® FOR STEMWARE & TUMBLERS

These racks offer complete protection for all your delicate and valuable stemware and tumblers, from washing and handling to stacking, storing and transporting.

Choose the correct dishrack:

1. Measure the maximum diameter of your glass (stemware or tumbler) to determine the number of compartments.
2. Measure the maximum height of your glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.

SELECTING THE RIGHT CAMRACK

Selecting the Right Camrack

Cambro offers multiple ways to help you quickly find the right Camrack:

1. www.cambro.com/mycamracks

To quickly find the correct Camrack, please visit www.cambro.com/mycamracks. Select the item you are sizing, enter the measurements and quantity of the item, and the right Camrack will appear on the page.

2. Cambro Catalog

Flip to the back of this section for a convenient stemware and glass sizing reference guide.

3. Cambro Sales Representatives

Contact your local Cambro representative and he or she will walk through your current ware

handling system with you and specify Camracks, dollies and covers that will fit your glasses and dishware. To find your local representative refer to the back section of this catalog, visit www.cambro.com and click on "Find a Sales Rep" on the lower left of your screen or call the Cambro Customer Service line: 49-7022-90-100-0.

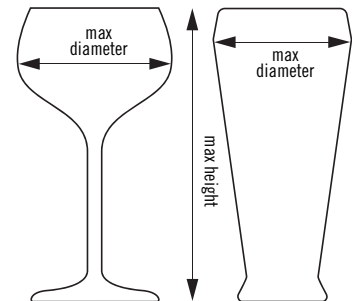

4. Send a Sample to Cambro

C.E.L. Customer Service.
Kelterstrasse 51
72669 Unterensingen, Germany.

Please be sure to include complete contact information and specify if you need full-size or half-size Camracks.

Choose the correct Camrack:

1. Measure the maximum diameter of the glass (stemware or tumbler) to determine the number of compartments.
2. Measure the maximum height of the glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.

Download the Cambro App:

Find the right Camrack for your Glassware by entering the height and maximum diameter of your glass.

CAMSHELVING® PREMIUM SERIES

High Density Storage Floor Track System

Maximize storage capacity by creating storage aisles in all available space. This simple system is composed of stationary starter units anchored to a raised floor track system at both ends with high density mobile units installed in between. Easy to install track requires no drilling or gluing.

High Density Mobile Units are available with factory assembled post kits, vented or solid shelves and high density casters and bumpers. Full track and extension kits ship complete with required hardware. Stationary Starter Units are required to anchor the system at both ends. Choose from a wide selection (see pages 102-103).

Stationary Unit*

High Density Mobile Units

Stationary Unit

Raised Floor Track provides a smooth and level surface to easily roll mobile units. Raised track ensures dirt will not get trapped and is easy to clean. Aluminum track and stainless steel hardware are rust resistant.

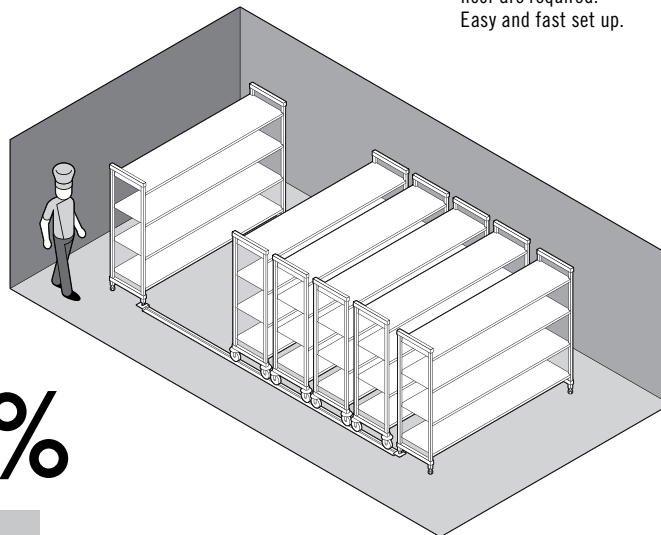

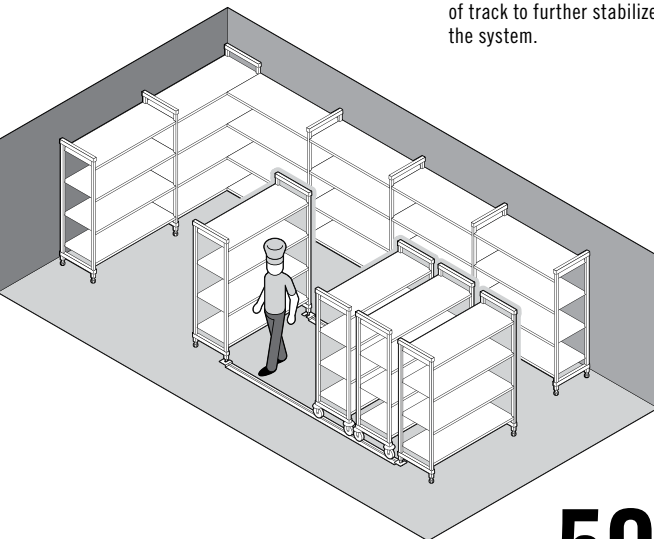

*It is recommended to use a stationary unit for every 4,6 m of track to further stabilize the system.

Grooved casters roll easily and securely on raised track.

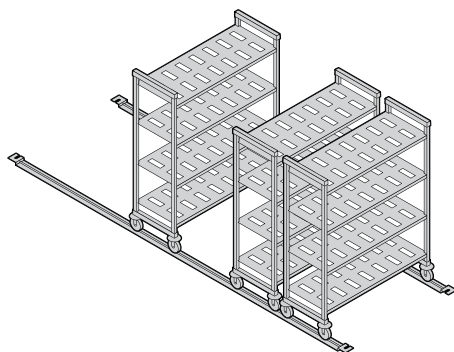

Raised track connects easily to the bottom of a stationary unit that works as a system anchor. No bolts, no glue or drilling into the floor are required. Easy and fast set up.

Increases Storage Capacity Up To **50%**

CAMSHELVING® ELEMENTS series

WHY CHOOSE ELEMENTS?

Made from a revolutionary, extremely strong composite material with a smooth, easy to clean surface. Elements Series is stronger than common wire shelving. It's lighter in weight than Camshelving Premium Series and totally impervious to moisture, chemicals and liquids that can destroy shelving over time. Elements Series is designed for medium to heavy storage use in freezers, coolers, dry storage or warewashing areas. It easily supports the performance demands of a busy foodservice operation.

CAMSHELVING® BASICS PLUS series

WHY CHOOSE BASICS PLUS?

Just because the budget is tight and storage needs are less rigorous, it doesn't mean that shelving performance and storage efficiencies should be compromised. Basics Plus Series is made from the same high performing, strong composite material as Elements Series and has the same design features. It's lighter in weight and less in cost but still strong enough to handle light to medium storage demands.

CAMWEAR® GASTRONORM FOOD PANS

Store, transport and serve all in one pan. Camwear food pans are made from durable Camwear that will not crack, bend or dent. Precisely designed to Gastronorm GN specifications, with a bottom to reduce food waste. At half the cost of stainless steel, Camwear pans keep contents as cold as metal pans with less condensation. Pans stack neatly without wedging or sticking.

Camwear GN pans are not recommended for steam table or microwave use. See X-Pan® section for these high heat applications.
.....
Colander Pan is covered by U.S. Patent D 528,376 S.
.....

Uniform 1,27 cm flange ensures a smooth fit in prep tables and food bars.

Virtually unbreakable Camwear withstands temperatures from -40° to 99°C.

Molded-in graduations in standard and metric for easy inventory management.

Non-stick smooth interior surface increases yields and promotes easy cleaning.

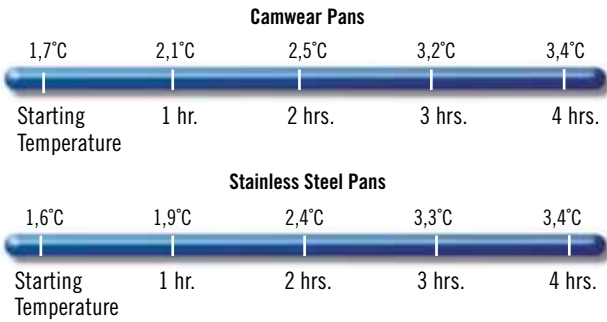

Textured bottoms resist scratching.

Won't react with food; minimizes potentially hazardous chemical or acidic reaction.

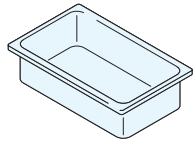

Cold Test

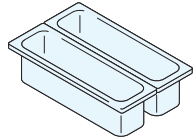

Tests prove Camwear food pans keep products as cold as stainless steel. Stainless steel may feel colder, but as these test results demonstrate, Camwear food pans keep products just as cold for just as long.

Flat Cover

Available in all pan sizes.

Cover with Handle

Deep molded handle provides secure grip and also includes a peg hole for sanitary drying. Available in black to help block light, reducing discoloration of meats and cheeses.

Notched Cover with Handle

Notched cover allows utensils to remain in pan and off of potentially contaminated counters. Includes peg hole for sanitary drying.

Seal Cover

Designed to fit Camwear and translucent food pans, Seal Covers feature an inner seal that provides superior spill resistance and extends shelf life up to 3 days.

FlipLid®

Flip up lid to easily access contents. Food can be held without getting dried out, increasing yields. Reduces points of cross contamination.

Notched FlipLid

Flip Lid with notch to rest spoon in contents with lid closed.

GripLid®

Molded-in polyurethane gasket on the lid grips the side of the food pan, reducing spills and points of cross-contamination.

Ingredient Bins

- Store bulk dry ingredients such as flour and grain.
- Hygienic clear sliding lid reduces handling and allows for quick content identification.
- Bin made of FDA-accepted material so no liners are needed.
- Designed to fit under standard work tables.

Camcrisper

- A self-contained system for brining or storing, washing and transporting bulk produce.
- Prevents cross contamination and minimizes unnecessary handling.
- Transfer dry produce out of cartons into bin, cover and roll into cooler for safe storage.
- Wash and rinse produce for easy and safe prep.

Brine Tank

- Designed for complete submersion of meats or poultry in brining solution for enhanced moisture retention, texture and flavor.
- Can also be used as a pre-soak tank for smallwares and dishes in sanitation solution to help reduce labor in pre-scrubbing.
- Clear sliding lid always stays on to help reduce the risk of cross-contamination.

7,6 cm Casters: 2 fixed, 2 swivel.

Color: White (148).

Scoops sold separately. S-Hook included.

Casters feature wide wheels for excellent stability and weight bearing capability.

CHOOSE THE RIGHT TRAY FOR YOUR BUSINESS

Cambro is the global leader in manufacturing trays for the food service industry, offering the largest selection of materials, sizes, colors, shapes and personalization processes. Cambro's breadth of assortment provides the clear choice for the right tray for every need and budget.

Consider the following to select the right tray for your operation:

Step 1: What Will the Tray Be Used For?

In order to choose the correct tray, first identify the correct application.

Service Tray

Used by employees to carry items to serve to guests:

Non-Slip Tray

Patron Tray

Used by customers to carry menu items:

Smooth Surface Tray

Step 2: Who Will Be Using the Tray?

To determine the appropriate tray material, it is critical to identify who will be using the tray.

Children

Students

Military

Office Employees

Wait Staff

Step 3: How Will the Tray Be Used and Washed?

Consider how the tray will be used, and whether it will endure mild or excessive use and abuse. Determine how often the trays will be washed per day.

Extensive:

Wash as often and as frequently as needed

Normal:

Wash up to 3 times per day

Minimal:

Wash once per day

Step 4: Determine the Budget per Tray

Ensure that the correct tray has been selected for the right application. Selecting a low cost tray for a heavy application is not the most cost effective option. Tray pricing varies according to the following factors:

Manufacturing process

Material type and grade

Tray size

Personalization options

Warranty

Step 5: Personalization

Cambro offers high quality personalization on most of the trays that we manufacture. Look for the personalization logo throughout the brochure. 

Step 6: Additional Features to Consider

Evaluate the importance of the following features to determine the best tray for your operation.

Stacking lugs - Promote air circulation for fast drying and perfect stacking

Surface impact resistance

Edge breaking resistance

Scratch and stain resistance

Type of Warranty

Technical test descriptions

All Cambro trays are submitted to an array of tests described to the right. The results are indicated on each tray page under Technical Test Results.

TESTS DESCRIPTIONS

Thermal Shock Resistance Test:

Test consists of applying a radical temperature change during a short period of time to the tray, by taking out the tray from icy water (0°C) and placing it into boiling water (100°C) and measuring any deformation.

Break Resistance Test:

Test consists of dropping a metal ball from specific heights onto the tray and measuring any deformation.

Scratch Resistance Test:

Observe scratches and abrasions as a result of friction between porcelain dinnerware and the tray surface.

Test consists of moving a porcelain dish placed on tray from left to right under hand pressure and measuring any abrasion on tray surface.

DISHWASHER SAFE DESCRIPTIONS

Extensive: Wash as often and as frequently as needed.

Normal: Wash up to 3 times per day.

Minimal: Wash once per day.

Why Cambro® Healthcare?

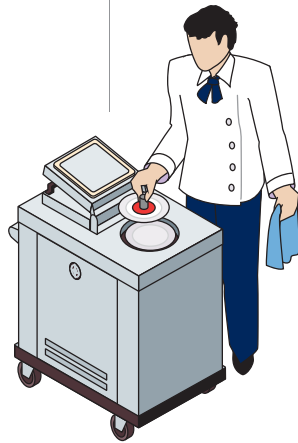

For over 60 years Cambro has been focused on developing innovative solutions to the toughest challenges in the foodservice industry. Cambro Healthcare products are designed to perform consistently under the most demanding conditions of healthcare foodservice.

The Components for Successful Meal Service and Patient Satisfaction

Hot Food

The goal of any meal delivery system is to keep food hot and fresh. Safe food handling and preparation are the first steps.

Hot Plate

Hot plate needs a plate heated to 85°-90°C. A plate that is not heated diminishes food quality for patients.

Temperature Maintenance System

Innovative Camduction® heat retention system charges the bases to 75°-85°C fast and efficiently for any facility with a hot tray line system.

Meal Transportation

From meal delivery carts to individual Tablotherm meal transport systems, these products can extend the heat retention of the meal to the patient's bedside.

.....
Tablotherm Pellet System achieves temperature retention of 64°C for 2 hours.

CAMDUCTION® COMPLETE HEAT SYSTEM – HOT MEAL DELIVERY SYSTEM

Camduction innovative hot meal delivery system is fast and efficient. Camduction is perfect for any facility with a hot tray line system. One charger can accommodate up to 300 meals per service.

Camduction Charger covered by U.S. Patent 8,263,906 B2.
Camduction Base covered by U.S. Patent D630,897 S.
.....
Camduction Charger comes with 1 year warranty.
.....

1

Quickly and efficiently heats up to 20 Camduction bases at one time, standard setting takes 5 minutes.

Energy efficient unit turns off after 45 minutes of no activity.

Digital sensors ensure bases stay hot till removed.

Flexible solution for prepping 20-300 meals per service period.

Camduction charger is made of high-grade, durable stainless steel that remains cool to the touch.

Easy to operate: amber slot LED indicates bases are heating. Green light indicates ready.

Independent functionality of each compartment reduces the risk of service interruption.

Specify cord and plug for country of usage.

Unit comes factory set based on the facilities operation.

MEAL DELIVERY CARTS FEATURES AND CASTER CONFIGURATIONS

Standard Caster Configurations:

These caster configurations are designed to provide stability and maneuverability over uneven surfaces.

MDC1520S20, MDC1418S20, MDC1411T60

MDC1520S10*, MDC1520T16, MDC1418T16

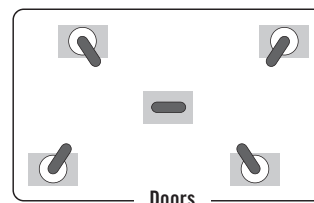

MDC1520T30, MDC1418T30

Optional Caster Configurations*:

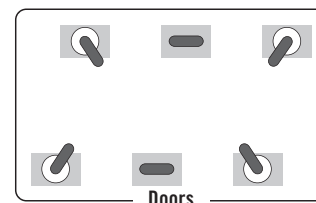

These caster configuration options are alternative designs if facility or environment requires the need to change.

MDC1520S20, MDC1418S20

MDC1520S20, MDC1418S20, MDC1520T30, MDC1418T30, MDC1411T60

MDC1520S20, MDC1418S20, MDC1411T60

*All optional caster configurations are special order items and therefore non-returnable.

Handles

MDC1520S20, MDC1418S20

Molded in handles on each end for smooth transporting.

MDC1520T16, MDC1418T16

Molded in handles for easy transporting.

MDC1520T30, MDC1418T30, MDC1411T60**

Heavy duty nylon handles are securely mounted and nested into each end. **MDC1411T60 has tamper resistant heavy duty aluminum tubing handles.

LEAD IN CASTERS

Castors are offset to ease movement over uneven surfaces. This is standard on MDC1520S10, MDC1520S20, MDC1418S20, MDC1520T30, MDC1418T30 and MDC1411T60.

Cambro® Warranty

Cambro Camtrays® and Camwear® Dinnerware have a five year guarantee against breakage. Camtherm Bulk Food Holding Cabinets hold a one-year warranty. Camwear food storage products are guaranteed for two years under normal usage. Camshelving® has a one-year warranty on workmanship and a lifetime limited warranty against rust and corrosion, excluding mobile posts. For all other Cambro products, Cambro warrants to the original buyer a three-year pro-rated guarantee. If product proves defective during this time, Cambro grants a pro-rated credit of the original price toward replacement product. The warranty applies on all Cambro products only when used under normal foodservice industry conditions.

Photo credits:

Cambro products help foodservice operators throughout the world. To represent our global presence, images of Cambro products in use have been taken on locations throughout southern California, USA; in Cancun, Mexico; on the island of Rugen, Germany; and in the city of Huizhou, China. In particular, special thanks to the staffs of the Ambience Hotel, Rugen; Jin Hua Palace Hotel, Huizhou; Southern California Gas Company, Downey; Orange Coast College, Santa Ana and California Hospital, Los Angeles for their assistance in our photo shoots.

STEMWARE AND GLASS SIZING REFERENCE GUIDE

To Determine Compartment Size

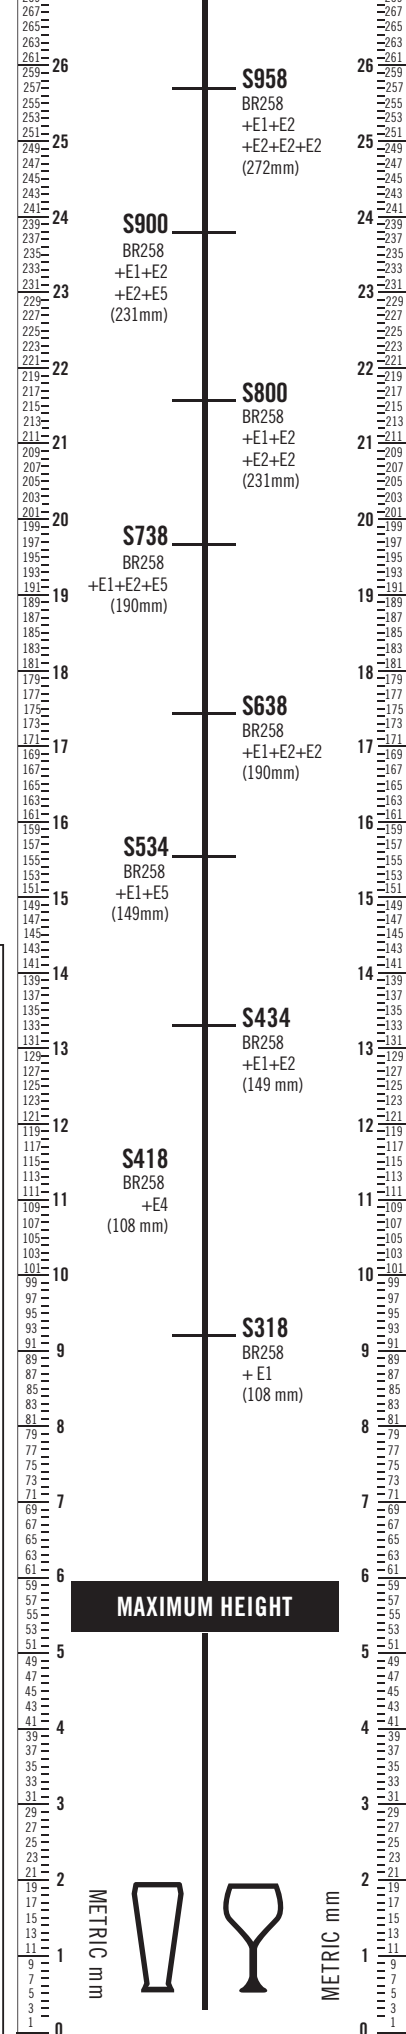

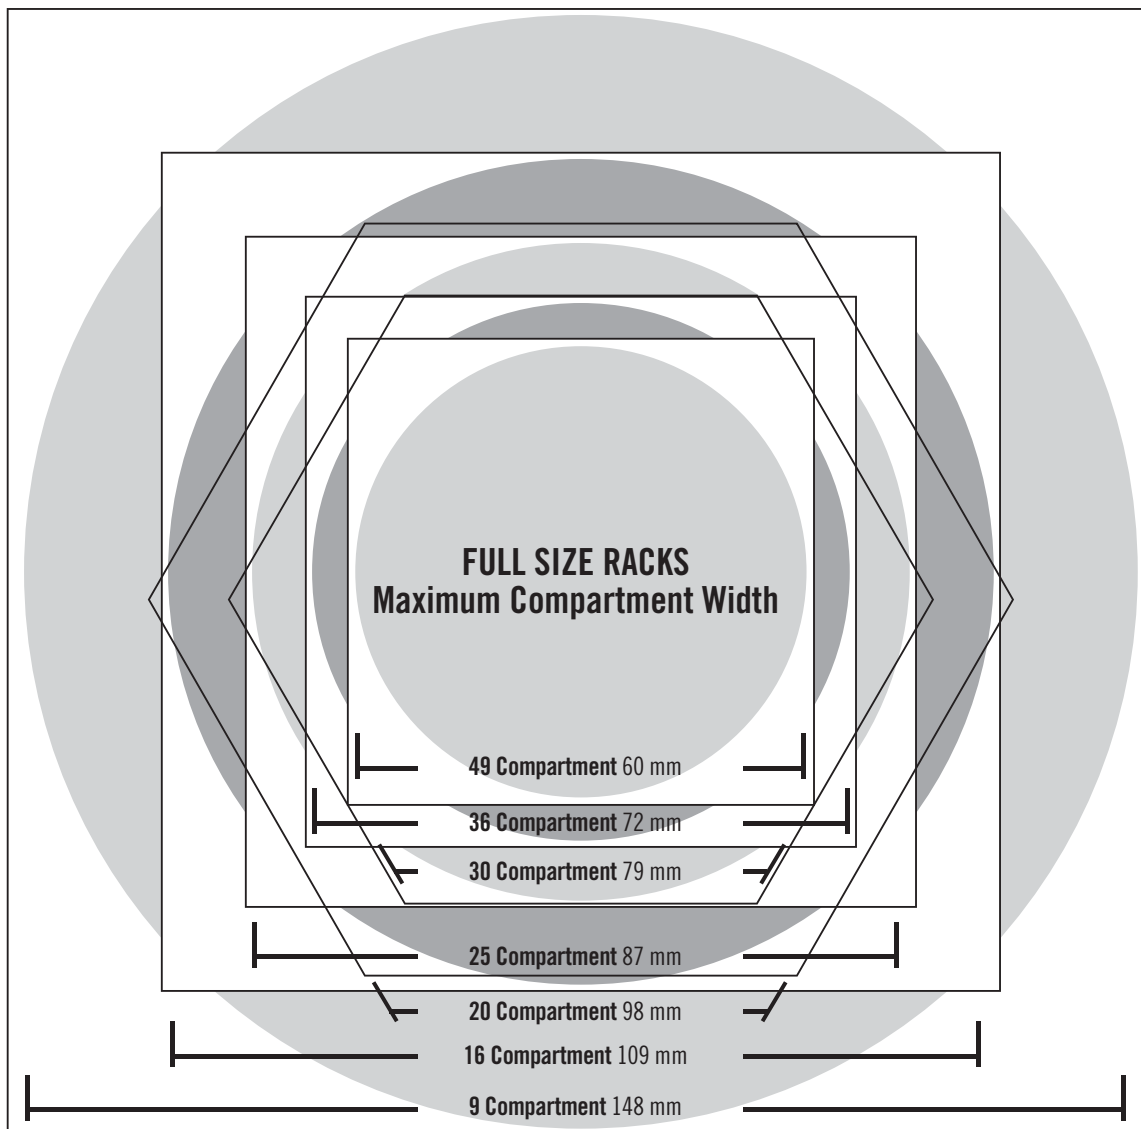

• Half Size Racks:

Place glass or stemware upside down over circle chart. Look down on the glass. Whatever circle the largest diameter of the glass fits within will determine the number of compartments.

• Full Size Racks:

Place glass or stemware upside down over circle chart. Look down on the glass. Whatever circle the largest diameter of the glass fits within will determine the number of compartments.

Use the vertical guide marks at right to determine item height and appropriate rack number.
