# DJOBIE COLLECTION

IMAGILIGHTS® is a Belgian company manufacturing and distributing a range of rechargeable cordless lighting solutions for INDOOR, OUTDOOR and POOL use.

IMAGILIGHTS® lighting products are rechargeable and work completely wireless. Enjoy the freedom and flexibility of placing or hanging your lamp wherever you desire. There are no wires to be hidden, and no electricity plugs to be foreseen.

### Special features:

- > 24 Pre-programmed colors
- > 2 Colors mix mode + fix a color
- > 2 Candle modes
- > 4 Brightness modes
- > 18h High white color
- > 64h Low white color
- > 18h Color mix
- > 26h Color fix
- > 22h Candle effect
- > 8h Charging time

As lighting is the key to create the right ambience, every model is equipped with 24 pre-programmed colors to complement the color scheme of your interior, two romantic candle effects to add warmth and intimacy, two slow mix modes and a four stage dimmer mode to achieve the perfect gentle glow you desire.

IMAGILIGHTS® Cordless lamps are covered by Design Registration, Copyright and Patent Pending. All rights reserved. All shapes and models are registered. Patented LED module. Patented wireless charger. Any tampering with or repairing the unit voids the warranty. Units are tamper protected. ©2017 IMAGILIGHTS®

# COLLECTION COPPER GLOW

Premium Porcelain  
with COVERSEAL

"An elegant fine-dining series in a modern copper look"

Cover Seal by Villeroy & Boch is the new metallic-looking surface finish – very resistant, dishwasher-safe, microwave-safe and salamander-safe.

The colour copper is an enduring trend. From fashion to interior or product design, copper's subtle sheen adds expressive highlights. And this also applies to Copper Glow, Villeroy & Boch's new fine-dining series. Crafted in an original dark coppery-red shade, Copper Glow presents exquisite culinary creations in impressive style, becoming a highlight in its own right on the dinner table.

Copper Glow is different to the shade usually associated with natural copper. It is darker and has a stronger hue of red. This gives the tableware an exceptionally elegant appearance while at the same time allowing harmonious combinations with other copper objects such as cutlery, accessories or decorative items.

The Copper Glow decor is applied by hand all over the rim in sweeping brushstrokes. The result is a very fine swirl effect that emphasises the series' elegant look and distinctive character. This also significantly increases the rim's resistance to impacts. The new subtly shining CoverSeal surface finish is abrasion resistant and very durable. Thanks to its metal-free composition, the plates can also be used in the microwave.

Handmade Crystal Glass

Safe to use in the dishwasher, salamander grill and microwave

## The fine line between art and design: function and freedom, ephemeral and eternal.

The Bormioli Rocco high quality project for those who make high quality the heart of their business.

Aldo Cibic, world famous designer, created the progenitor stemware collection of the entire InAlto signature project. Function and freedom, ephemeral and eternal, the dividing line between what we define as art and what we define as design is always finer.

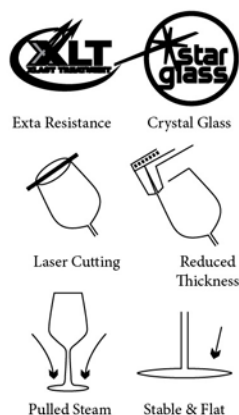

Our eyes, devourers of images, acquire a sharp and dilated sensitivity that enables us to seize the signs of change and the distinctive traits of beauty. But, do design and art still satisfy two different needs?

## INALTO PROJECT

Inalto represents Bormioli Rocco's high-end offering, dedicated to luxury restaurants and hotels. First conceived in 2014 with the launch of UNO collection, Uno is the first series of the inAlto project. The essential and sophisticated shapes, conceived by the designer Aldo Cibic.

The collection of TRE SENSI developed in close collaboration with the Italian Sommelier Association (AIS), ensures the ultimate wine tasting experience. A thoroughly Italian design inspired the birth of the new INVITO collection. An elegant range of tableware encompassing two lines of carafes of three different capacities and a decanter.

The distinctive outline of the ARTE collection is the outcome of a complex research work led by the Bormioli Rocco Design Atelier.

ARTE Gave birth to a smart and unique design

# THE ART AND SCIENCE OF GOOD EATING

Whether it is casual brunches or sophisticated dinners, Gastro is the right fit to raise the bar on the style and elegance of your food presentation. Easy to use, easy to store and easy on the eyes. Where it counts, our products step up to the plate to help you deliver a gastronomic experience that is at once pleasurable and memorable for your guests. We invite you to "put your best food forward" and give your buffet table the attention it deserves.

Elegance, Originality, Space Saving Properties, Multi-Combinations

## Discover The Best Buffet Display

THANKS TO ITS: A BUFFET UNLIKE ANYTHING YOU'VE EVER IMAGINED

Discover the finest buffet presentation: elegant, original, space-saving and providing a multiple range of variations and possibilities.

Ever since 1921, Pujadas, which specialises in the field of cookware and kitchen accessories, has used the most efficient and eco-friendly production processes in line with strict quality controls while at the same time offering competitive products that are exported worldwide.

Add efficient sophistication to your buffet presentation with the Cubic Display System. The modern, sleek design of Cubic offers limitless versatility with configuration options that allow you to create the ideal setup for every occasion.

From large gatherings to intimate functions, Cubic offers versatile options to completely tailor the setup for any style of foodservice. So whether it's a casual brunch, a formal business luncheon or a festive birthday party, you can select and combine the elements you need to accommodate your menu options, serveware and chilled beverages required for each event. And you can quickly and easily reconfigure the setup on the spot.

# Professional Cookware

## Why we prefer Stainless Steel for Cookware ?

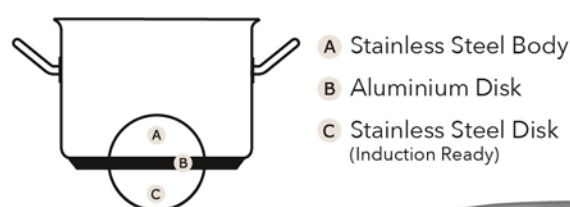

Stainless Steel has long been the first choice of producers, designers and users of cookware because of the fact that stainless steel products do not stain, chip or rust are robust and do not affect the flavor of the food, plus their easy cleaning maintenance make it the first choice for strict hygiene conditions such as found in hospitals, kitchens, abattoirs and other food processing plants.

Stainless steel's bright, easily maintained surface provides a modern look and attractive appearance. What's more, being fully recyclable, stainless steel has good environmental credentials.

Stainless steel pots are available in either a smooth satin polished finish or shiny mirror finish or may be semi-satin semi mirror as well.

**ozti**

Fuel Ceramic Hot Plate Induction

For pots and pans optimum heat transfer is achieved using a triple bottom in stainless steel, aluminium and stainless steel. This heavy duty bottom has a "sandwich" construction with the aluminium enclosed by stainless steel.

With the professional bottom. OZTI pots and pans are perfect for use on any kind of stove whether induction, electrical, glass ceramic or gas.

## Glass Polisher

To dry and polish your champagne, wine, brandy, and sherry... Glasses won't be a problem anymore with FRUCOSOL glass polisher machine.

The traditional methods for drying the glasses are very hard and require a lot of time and effort. Moreover we can forget the difficulties people find with the cleaning inside the glasses, the edges and the bottom. With the dryer and polisher machine for glasses you will get ready of dried and polished glasses in a few seconds.

Wet glasses and cups are introduced through the dryer rollers which, thanks to its rotation movement and a hot air, eliminate completely the humidity and polish it removing any water mark in a short time.

The rollers are made by natural, flexible and absorbent fibres; in this way they are perfectly adapted to the different shapes of the glasses and provided the dryer process with a high level of hygiene.

## THRILL® Vortex

The ideal solution for sanitizing glasses thoroughly and chilling them instantly.

If you ever wondered why the cocktails served in the most trend setting bars tend to taste so much better, the answer may lie not in the contents of the glass but within the glass itself. A glass that has been perfectly cleaned, sanitized, and chilled, helps keep drinks colder for longer, removes unpleasant residual odours and enhances the flavour of drinks. When it comes to improving taste, THRILL offers the ideal solution as it not only sanitizes glasses thoroughly, it also chills them instantly, allowing for a truly unique tasting experience!
